DETAILED ACTION

Receipt of request for extension of time (granted), amendment, information disclosure statement, and terminal disclaimer all filed 5-29-01 is acknowledged.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claim 1 is rejected under 35 U.S.C. 102(a) as being clearly anticipated by Hobbs (WO 96/04025; hereafter '025).

'025 discloses gel wound dressings comprising gel particles to absorb wound exudate that are applied with a syringe.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Fischer et al (4,554,156; hereafter '156).

'156 discloses a wound treating agent comprising gel particles that swell with water to form a barrier which is impermeable to bacteria and bars the entry of pathogens to the wound that are applied with a syringe.

4. Claim 1 is rejected under 35 U.S.C. 102(e) as being clearly anticipated by Hobbs (5,853,749; hereafter '749).

'749 discloses gel wound dressings comprising gel particles to absorb wound exudate that are applied with a syringe.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hobbs (WO 96/04025; hereafter '025, AKA (5,853,749; hereafter '749).) or Fischer et al (4,554,156; hereafter '156).

'025 and '749 teach gel wound dressings comprising gel particles to absorb wound exudate that are applied with a syringe.

'156 discloses a wound treating agent comprising gel particles that swell with water to form a barrier which is impermeable to bacteria and bars the entry of pathogens to the wound that are applied with a syringe.

Response to Arguments

7. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Terminal Disclaimer

8. The terminal disclaimer filed on 5-29-01 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,066,325 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
